

# Grill/Broiler Burners

## Product Overview

- Provides an even radiant heat profile over the live heating zone
- Used for infrared cooking applications
- Customizable gas inlet
- Cost effective solution

## Market Segments

- Residential cooking, grilling and broiler market

## Technical Specifications

- Combustion type: Atmospheric
- Input: 13k Btu/h (4 kW)
- Size:
  - Width 8" (200 mm)
  - Length 12" (300 mm)
- Material: Ceramic & stainless steel
