

THE BOLTRA™

Clean Heat Simplified

THE BOLTRA invites you to join the next era of clean heat simplified. From ease of installation to upgrades made simple, **THE BOLTRA** becomes your solution for new appliances and field retrofits.

Key Benefits:

- ✓ Compact Design
- ✓ Ultra-low NOx Emissions
- ✓ Clean Combustion
- ✓ Ease of Installation
- ✓ Easy to Use & Maintain

THE BOLTRA™

A Range of Powerful Solutions

THE BOLTRA Pre-Mixed Gas Burners deliver high-efficiency, ultra-low-emission performance for commercial and industrial heating applications. With firing capacities from 100,000 BTU/hr to 3 million BTU/hr and a 10:1 modulation range, they provide stable, precise heat control across varying loads. Standard 0–10 V modulation ensures accurate demand matching, with optional Modbus communication for seamless system integration. Designed for natural gas or LPG, with an optional pilot ignition, THE BOLTRA Series features a clean, accessible layout for easy maintenance and a proven pre-mixed combustion system for reliable, flexible operation with ultra-low NOx and low CO emissions.

MODEL #	NOMINAL INPUT RATE IN MBH
BOLTRA30	100
BOLTRA45	150
